

Attention Customers,

In the December flyer there is a Brother insert that features 4 printers with flyer pricing offering additional Mail in Rebates. These items should have been priced as instant rebates so there is no need for mail in rebates as you will be receiving the discounted price automatically. In addition, two of these printers were incorrectly priced in the flyer as well. The corrections are as follows:

BRTMFC9840CDW- shows a flyer price of \$799.99 with a mail in rebate of \$80.00. You will automatically get the discounted price and be invoiced **\$719.99**

BRTMFC8480DN- shows a flyer price of \$499.99 with a mail in rebate of \$75.00. You will automatically get the discounted price and be invoiced **\$424.99**

BRTHL5370DW- shows a flyer price of \$299.99 with a mail in rebate of \$50. The correct price is \$309.99 and with the \$50 rebate you will automatically get the discounted price and be invoiced **\$259.99**

BRTMFC9120CN- shows a flyer price of \$499.99 with a mail in rebate of \$100. The correct price is \$524.99 and with the \$100 rebate you will automatically get the discounted price and be invoiced **\$424.99**

We sincerely apologize for the error.
