Specific hazards during firefighting: Aerosol Product - Containers may rocket or explode in heat of fire.

Further information: Fight fire from maximum distance or protected area. Cool and use caution when approaching or handling fire-exposed containers. Wear full protective clothing and positive pressure self-contained breathing apparatus. In case of fire and/or explosion do not breathe fumes.

Flash point: < -7 °C
< 19.4 °F
Note: Propellant

Lower explosion limit: Note: no data available

Upper explosion limit: Note: no data available

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Remove all sources of ignition. Wear personal protective equipment.

Environmental precautions: Outside of normal use, avoid release to the environment.

Methods for cleaning up: If damage occurs to aerosol can: Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13). Use only non-sparking equipment. Clean residue from spill site.

7. HANDLING AND STORAGE

Handling

Advice on safe handling: Do not puncture or incinerate. Avoid contact with skin, eyes and clothing. Avoid breathing vapours, mist or gas. For personal protection see section 8. Do not spray toward face.
Do not use in areas without adequate ventilation. Use only as directed. KEEP OUT OF REACH OF CHILDREN AND PETS.

Advice on protection against fire and explosion: Keep away from heat and sources of ignition.

Storage Requirements for storage areas and containers: Do not store at temperatures above 120 Deg. F (50 Deg C), as container may burst. Keep in a dry, cool and well-ventilated place.
